

Report on Giving 2023-2024

Thank you to our Donors

It has been our pleasure to serve the community as a trusted healthcare provider for over 130 years. Our friends and neighbors have relied on us to provide compassionate care and medical expertise as they navigate their way through difficult moments and times of celebration and joy.

The LG Health Foundation raises funds to support the work of our colleagues across Penn Medicine LG Health. Thanks to generous community donors, we have helped fund innovative new treatments, support patients in need, strengthen the level of care, and improve the patient experience to raise the collective bar for healthcare services in the Lancaster region. We are humbled by the support we received from our community in the 2024 fiscal year. Together, we raised over \$4.3 million to help advance our mission and support vital programs, positions, and resources that help us provide the best possible care for our patients.

All gifts to the LG Health Foundation stay local, and 100% of donations made go to the program or service designated by the donor. This means your support can directly impact cancer patients in need, kids in our Serpah-McSparren Pediatric Center, individuals needing behavioral health interventions, and families who've experienced a loss at Women & Babies Hospital.

This report recognizes those who make our work at Lancaster General Health possible. We are deeply thankful for the commitment and generosity of the individuals, organizations, corporations, and foundations that made gifts to the LG Health Foundation in fiscal year 2024.

With Gratitude,

Jennifer L. Groff
Executive Director, LG Health Foundation

Lancaster General Health Foundation Board of Trustees

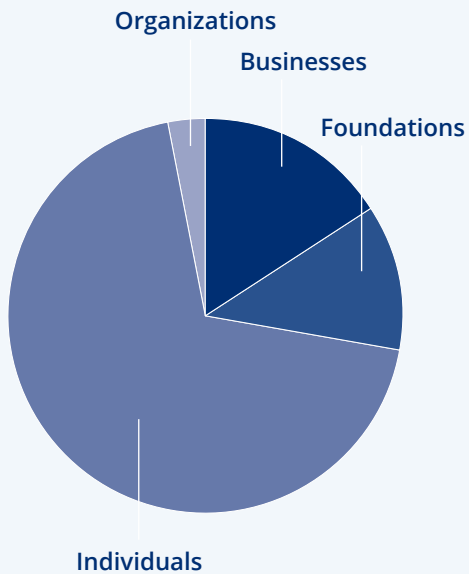

September 2023 – September 2024

INITIATIVES

Thank you to our 2024 Corporate Philanthropy Partners

Our Corporate Philanthropy Partnership Program provides businesses the opportunity to invest in LG Health's mission to advance the health and well-being of the communities we serve, and provides year-round marketing visibility for that generous support.

These philanthropic investments have helped create and support patient assistant funds, make new facilities possible, acquire advanced technology, and develop innovative care models to support our most vulnerable patients.
